Enhancing Lives Through Discovery™

 **SAN ANTONIO 2019**
Nonhuman Primate Models for AIDS
==== **37th Annual Symposium** =====

Texas Biomedical Research Institute and the Southwest National Primate Research Center is proud to host the 37th Annual Symposium on Nonhuman Primate Models for AIDS in 2019, which will be held at the beautiful Omni La Mansion del Rio Hotel in San Antonio, TX. The NHP Symposium has a long-standing tradition of playing a vital role in disseminating the most current and relevant findings in both basic and applied areas of AIDS research. The conference typically attracts more than 200 leading scientists in many areas of AIDS-related research, representing renowned universities, research institutes and corporations worldwide.

These internationally recognized scientists are at the cutting edge of retrovirus research, and together with their students, post-doctoral fellows, and junior associates, they are the direct consumers of your products and services. The 37th annual symposium provides an opportunity to showcase your brand and products to this international group of experts. Sponsorship of this symposium supports an important forum for disseminating the very latest scientific findings and stimulating new areas for AIDS research. Every dollar raised helps us keep fees down, which increases attendance, and helps us provide an exceptional experience so the attendees can focus on the creative exchange of ideas and developing new partnerships and networks. Science requires collaboration, and this forum has become integral to sharing of information that has advanced AIDS research and discoveries.

This symposium will be funded in part by a grant from the Office of the Director of the National Institutes of Health (NIH), as well as attendee registration fees. Contributions from private and corporate sponsors, however, will enable us to maintain the high quality of programming and networking opportunities. Please see in the next page the sponsorship options that are available for this meeting. It is our hope that you will be able to help sponsor our event. If you have any questions, please don't hesitate to call us or send an email to the addresses referenced below.

Respectfully,

Luis D. Giavedoni, Ph.D.
